Sam & Maria's Wedding

A scrumptious success

One of the things we love doing here at Feast It is providing wedding catering to make your special day that extra bit more special.

Knowing that your friends and family are going to be eating totally delicious food makes us feel really good inside. Last year, we provided street food trucks for over 300 weddings and one of these was the wedding of Sam and Maria.

We spoke to the groom's father, Niall, who was in charge of organising the catering, and he very kindly told us all about the day and his hassle-free experience with Feast It.

“ I really felt like someone knew what I was after and that they were listening to me. It really gave me confidence.”

Sam and Maria's wedding took place in July at a charming family church in Battersea. The bride and groom knew from the start of the planning process that they wanted street food catering and put Sam's father in charge.

Having worked in London, Niall knew and loved street food markets, but didn't now where on earth to book them. So he did what anyone would do and googled 'street food London', and found himself on the Feast It website!

We asked Niall how he found the selection and booking process and he told Feast It that Hugo, one of our founders, knew exactly what would work well in the space they had at the church and came back to him with a simple three-item menu from each supplier, really putting his mind at ease. Niall loved our online chat, where he could chat to the team and the suppliers he had chosen, and where any questions he had were swiftly answered.

“ This was something I really liked about the website, it clearly stated whether the supplier had a truck or a gazebo, or both!”

The family and their friends were joined on Sam and Maria's wedding day by **Waffle On**, who make the most remarkable sweet and savoury waffles, and **Room Service**, famed for their classic club sandwiches with a twist.

Niall found it rather stressful knowing that he was responsible for the food, but true to their word, the suppliers arrived at the venue when they were supposed to. He was particularly impressed with their attention to detail, which included specially printed menus in front of each gazebo stall, one of which even congratulated the bride and groom in both English and Slovak, Maria's mother tongue - a really lovely touch!
